

EAU BUSINESS SCHOOL	ACTIVITY
1. Public Speaking Club	The aim of this club is to enhance and develop student's skills in speech writing, public speaking and communicating to an audience with confidence and clarity. While the Club will speak on a range of issues, focus to date has been on environmental and business related issues.
2. Debating Society	The University runs competitive debate training to improve the student's knowledge on a range of current affairs and to gain confidence speaking in public. We regularly participate in inter-university debate competitions and welcome both beginners and experienced debaters.
3. UG Research Society	This is a student-led society, supported by the EAU Business School, for undergraduate researchers. Students are supported to develop the skills necessary to successfully engaged in research work and contribute to the growing student research culture at EAU. In addition, students participate in annual academic research competitions
4. Innovation Society	The Innovation Society is committed to responsible innovation that responds to real and anticipated challenges and opportunities. We participate in annual innovation competitions, translating our collective imagination into innovative solutions to challenges such as the Dubai Municipality project to create innovation from waste.
5. Model United Nations	Participation in Model United Nations supports students to learn about diplomacy, international relations and the United Nations. MUN develops skills in public speaking, debating, and writing, in addition to critical thinking, teamwork, and leadership. It also enhances the student's understanding of current world issues.
6. Design Club	The club aims to nurture budding designers to work independently and in groups to bring forward their creative and innovative ideas whilst motivating and honing their artistic capabilities. The club has taken initiatives in organizing poster design competitions in the university, thus providing a platform for the talented artists.
